| DATABASES | MongoDb, Mongoose |

## PROJECTS / OPEN-SOURCE

**AFRIVALLEY-MARKETPLACE | LINK**          Html, Scss, Bootstrap, React, Redux toolkit, Node, Express, MongoDb

- Facilitates money transfers in Zimbabwe, South Africa, Namibia, Lesotho, and Eswatini, offering cost-effective solutions up to 8 times cheaper than traditional banks.

- Provides a generic calculator for users to determine transfer amounts, received amounts, and transaction fees based on the selected country.
- Incorporates live exchange rates for accurate currency conversion in real-time, enhancing transparency and reliability.
- Features a chatbox for client-agent communication, ensuring seamless support throughout the transfer process.

## AFRIVALLEY ADMIN PORTAL | Link          Html, Scss, Bootstrap, React, Redux toolkit, Node, Express, MongoDb

- Admins hold super control over both client and agent sides, ensuring any modifications made reflect across associated sites, facilitating seamless coordination and efficient management of operations.

## AFRIVALLEY AGENT PORTAL | Link          Html, Scss, Bootstrap, React, Redux toolkit, Node, Express, MongoDb

- Agents within the portal can view and manage client orders, update order statuses, and handle financial transactions, including confirming client payments and transitioning orders from pending to completed upon successful fund transfers, while also facilitating client communication.

## AFRIVALLEY MOBILE APP                          React Native, Node, Express, MongoDb

- Same web application convert to mobile app

## LION STATIONARY | Link                          Html, Sass, Bootstrap, React, Redux

- Lionshop.sg is an e-commerce platform centered around stationery items.
- Primarily responsible for designing the user interface and integrating backend APIs provided by the client.
- Utilized HitPay as the payment gateway to enable secure and convenient payments for stationery purchases

## PAN PACIFIC | Link                          Html, Sass, Bootstrap, React, Redux

- Website for Pan Pacific Leasing, focusing on commercial van and truck leasing with online leasing and quoting services.
- Responsible for designing a visually appealing user interface (UI) and integrating client-provided APIs. Implemented Stripe payment gateway to facilitate secure online payments

## KENSO                          Html, Sass, Bootstrap, React, Redux

- Responsible for designing a visually appealing user interface (UI) and integrating client-provided APIs.
- Primarily tasked with creating the user interface (UI) and integrating APIs provided by the client.
- Implemented SingPass integration to enhance the functionality and usability of the platform.

## CAR MEDIC | Link          Html, Scss, Bootstrap, React, Redux toolkit, Node, Express, MongoDb

- Personal project aimed at managing various aspects of a car service center.
- Expense management
- Revenue tracking
- Profit calculation
- Stock management
- Service management
- Order tracking
- Order history maintenance

## AFRIVALLEY E-COMMERCE     Html, Tailwind, Bootstrap, React, Redux toolkit, Node, Express, MongoDb

- Afrivally e-commerce platform, similar to Daraz, encompasses user, seller, and super admin portals.
- User Portal: Accessible to customers for browsing products, making purchases, and managing orders.
- Seller Portal: Designed for vendors to list products, manage inventory, and track sales.

- Super Admin Portal: Central hub for platform management, allowing administrators to oversee user and seller activities, manage transactions, and maintain platform functionality.

## CONNEKTA        Html, Angular, Scss, NG-Zorro, .Net

- Conneckta offers multiple features and portals, functioning as both an e-commerce platform and a campaign management system.
- Tenant Portal: Users can create and customize business and marriage cards using an onboard canvas editor.
- Admin Portal: Central hub for platform management and oversight of user activities.
- Supplier Portal: Suppliers receive quotations for orders placed by users and fulfill or dispatch them accordingly.
- Facilitates the creation of personalized business and marriage cards through the tenant portal, with suppliers providing quotations and fulfilling orders placed by users on the platform.
